

Two Sides of a Paper

We all know that a piece of paper laying on a desk has two sides, they both are white, they both are the same size, and both are writeable. However, both are not the same, because in all reality one side is always facing up and the other is not. We as humans are quite the same, what I mean is this, though we are of the same human race, and have similar features arms, legs, organs and so forth, we are very different when it comes life. Some people are doer's while other's are not, and just like that paper, which will have one side written on and the other side blank. The significant difference is this, we as humans have a choice in life, so I ask which will you be? The doer, or the not? God has given this very great opportunity in life, to be doer's for God, those who reach out to the lost and win souls. We should take advantage of our God given talents and put them to use, so that our proverbial side of the paper is facing up and being written on.

James 1:23-25 (NKJV)

For if anyone is a hearer of the word and not a doer, he is like a man observing his natural face in a mirror; for he observes himself, goes away, and immediately forgets what kind of man he was. But he who looks into the perfect law of liberty and continues in it, and is not a forgetful hearer but a doer of the work, this one will be blessed in what he does.
