The Knights Code of Chivalry

The knights of the classical or medieval age had codes or life-styles they had to abide by. For example a knight lived by the ways of honor, respect, truth, and to please God at any cost. Here are some codes they lived by.

- Fear God and His Church
- Serve the liege Lord in valor and faith
- Protect the weak and defenseless
- Live by honor and for glory
- Respect the honor of women

They knew when to be aggressive and when to be gentle, they lived their lives by that honor and code and they also had commandments they obeyed.

- **Believe the Church's teachings and observe all the Church's directions**
- **Defend the Church**
- **Respect and defend the weak**
- **Love your country**
- **Do not fear your enemy**
- **Show no mercy and do not hesitate to make war with the infidel**
- **Perform all your feudal duties as long as they do not conflict with the laws of God**
- **Never lie or go back on one's word**
- **Be generous**
- **Always and everywhere be right and good against evil and injustice**

The point is this, the codes and virtues the knights of the past followed were all based on God's Word, if we see society today, we will not see the code of the knight being followed by today's world, all we see today is chaos and madness.

Proverbs 10:8-10 (NKJV)

The wise in heart will receive commands, But a prating fool will fall. He who walks with integrity walks securely, But he who perverts his ways will

become known. He who winks with the eye causes trouble, But a prating fool will fall.

Our Country has fallen away from the counsel of God and has followed in ways of the foolish. Let's get back to where we belong...following our God.

Adrian
